REPOBLIKAN'I MADAGASIKARA
Fitiavana - Tanindrazana - Fandrosoana

MADAGASCAR Perspective

Presented by

Mrs HAVANIRINA Jolcette Emilienne

Director of the Promotion of Women and Gender

LIST EXISTING POLICY AND LEGISLATIVE FRAMEWORKS ON CLIMATE CHANGE AND GENDER IN MY COUNTRY.

- National strategy of gender and climate change (2023) ;
- National climate change adaptation plan of Madagascar (December 2021) ;
- National processus adaptation of gender in Madagascar (2019)

INFORMATION ON GENDER INTEGRATION IN LOCAL, NATIONAL, OR REGIONAL CLIMATE CHANGE ACTIONS.

Gender Analysis on Sexual and Reproductive Health and Resilience climatic :

- Climatic change impacts community resilience and limits access opportunities sexual and reproductive health services ;
- Girls and women are most at risk and impacted by climate-related crises because they are responsible for supplying their homes with food, firewood and water, by social norms established and cultural practices

CLIMATE-RELATED PROGRAMS

The national strategy of gender and climate change :

- Integrate the gender dimension into all the processes of development, implementation and monitoring and evaluation of policies, strategies and programs relating to the climate ;
- Build capacity for better participation of women in all climate actions

CLIMATE-RELATED PROGRAMS

- Promote the empowerment of women in all priority areas of climate change ;
- Mobilize funding to strengthen the resilience of women and enable the achievement of the objectives of the Paris Agreement ;
- Set up a system for collecting sex-disaggregated data and monitoring indicators for gender mainstreaming in climate actions

THE CAPACITY AND POLICY GAPS THAT HINDER THE PARTICIPATION OF WOMEN, YOUTH, AND VULNERABLE GROUPS IN CLIMATE CHANGE-RELATED PROGRAMS

- The preponderance of local customs and traditions
- Multiplicity of documents;
- Rigidity of procedures

RECOMMENDATIONS

- Strengthen the household targeting process by targeting the categories of people most exposed and vulnerable to the negative consequences of climate change ;
- give the main guidelines of the fight against climate change
- strengthen actions to combat climate change
- serve as a reference for the actions to be undertaken
- Improved data management, which is critical for better decision-making, preparation for future responses, and advocacy for improved responses to climate change in emergencies

Thank you!

Misaotra tompoko!
